### Testimonies

**Ron:** I grew up in a Christian home and we were in church every Sunday as well as most any day there was an event at the church. By the time I was 10 years old I realized my need to be saved from my sin and walked forward one Sunday morning after a particularly moving sermon by my pastor. I was baptized a few weeks later and began my journey as a follower of Christ.

I must mention that even before that time I had a strong desire to become a professional pilot. When I was in junior high school the Lord put it on my heart to become involved in some type of full time ministry. It was not until high school when I met a "missionary pilot" that I realized I could put both ideas together as one and thus faithfully follow what God had put on my heart. I certainly was not perfect through my developmental years, but God was faithful and led me through the process of becoming a missionary pilot through my studies at Wheaton and Moody Bible Institute.

We joined Mission Aviation Fellowship in 1985 and landed in Africa in 1987 where we served for 16 years as pilot and missionary. Due to several issues including our high school boys' education needs we returned to the US in 2003 and worked in the operations office at MAF's headquarters. When MAF moved to Nampa, Idaho in 2006 we were able to live near the campus of Northwest Nazarene University and combined with my understanding for the need for me to improve my administrative skills I decided to complete an MBA at NNU. I finished in 2009 and now that the boys are all out of the house, Roz and I decided to use some of the skills from my education in Africa. We are now living in Kinshasa and have taken the program management position.

**Roz:** My parents become Christians as young adults and so they provided home instruction that followed Biblical principles. Our family attended Sunday School and worship services regularly.

We were involved in Vacation Bible School and Child Evangelism Fellowship Club meetings.

At the age of 8, after reading a Sunday School paper, I recognized my need to confess my sin to God and to ask for forgiveness...I wanted to have eternal life in heaven. During my high school and college years the temptations of this world were strong and I was not consistent in my desire to think and act as one who was a Christ follower. I thank God that He continued to speak and challenge me until the time came when I submitted to His call on my life - for time here on earth, not just for the time in eternity.

University studies allowed me to examine and process the Bible instruction I had been given as a youth so that I knew for myself, the truths that had been given to me by parents and Sunday School teachers, youth leaders and camp speakers. High school biology class and the satisfaction of being able to help others directed me to the pursuit of a BS in nursing. As a child I also heard many cross cultural missionaries tell of the work God had given them to do in foreign lands and I sensed that God was asking me to serve Him in a cross cultural setting. While completing basic requirements to serve with a group in Africa, I met Ron. We individually and then together felt the pull to live and work overseas.

We moved to serve in Bata, CENTRAL AFRICAN REPUBLIC in October 1991. **Ron** took on the responsibilities of the 1 pilot program while continuing to serve as pilot/mechanic. He had the opportunity to work with the local Bible School professor to play basketball with the local school students - whose school year was interrupted due to teacher strikes.

**Roz** continued to serve as wife/mother/hostess and had the opportunity to work with a baby boy whose mother had died at birth and the aunt was caring for him...we received a report after our departure that the aunt had stated to co-workers the desire to 'go the Jesus way' !
